

A joint show by:

Ghazal Khatibi.

Exhibition titled: The Ridiculous Half...

Morteza Zahedi.

Exhibition Titled: The Cold Sore

The joyful and unconventional works of both artists easily shifts between two and three dimensions. Toys change shape and function when they are used as tools of expression.

The wonderful and creative use of paper by both of them is a defiance of clichés, creating witty, fantastic and unique pieces . Tranquility and turmoil are the other side of the coin.

Perceptive subjects such as political issues, life in general, memories of the childhood from 1980s, propaganda, and technology are dispersedly challenged, and sometimes visually narrated in new and daring ways.

The duo show of the two young artists is a breath of fresh air and a reminder that Art is fun and above all humane!
